

LIGHT & HOPE

In the Nordic Polar Circle, a sea captain is finding his way from the Arctic Ocean into the land of Lapland, looking for the Sami culture. Along the way he is struck by mysterious northern lights. He also marvels at the sunset's innumerable shades of glowing colour and makes it through the endless winter nights.

We hope that you, like our captain, are on a journey for the authentic – because the Arctic atmosphere has reached Nordic Light Hotel and HOPE.

This autumn and winter, we warmly welcome you with Sami gems and heart-felt materials. We have brought boots of soft reindeer skin, robust coats and heavy knits with us. As the daylight is fading, hundreds of sources of light are lit in order to offer you an experience full of feeling and a cozy refuge from the dark season.

Light & HOPE is open from September 2011 to February 2012.

HOPE

Swedish HOPE offers a concept of well-made everyday fashion for men and women, including accessories and shoes. The signature style is low key, clean, raw and authentic with ingenious cuts and innovative details. In 2010, HOPE was the winner of “Guldknappen” – the most prestigious award on the Swedish fashion scene. At Nordic Light Hotel you can see parts of the Autumn/Winter Collection “The Cap of the North” and benefit from special offers. HOPE Flagship Shop: Normalmstorg, Smålandsgatan 14 Stockholm, online: www.hope-sthlm.com

NORDIC LIGHT HOTEL

Over the years, Stockholm's design hotel has become distinguished by its unique lighting and changing atmosphere. The design is inspired by the variations of the Nordic seasons and in the hotel rooms, guests can adjust the lighting after their own taste and mood. During the year, the lobby features several different guest installations, with everything from established designers to those who are completely new on the scene, all of whom work closely with the hotel's own design team.
