

# NORDIC LIGHT HOTEL

## MEETINGS

Every meeting has its own unique circumstances and requirements. That's why we have developed five meeting concepts, each with a different focus. What all meetings at the Nordic Light Hotel have in common is that it's easy to get to them. You're in the heart of Stockholm, just minutes from the Arlanda Express train, Stockholm Central Station and underground connections. We look forward to helping you arrange your meeting!

### Create and Produce

Seclusion and support to help working groups to do great things in a limited time, regardless of whether the context is a board meeting or a creative workshop.

### Teach and Develop

A meeting concept where the rooms, equipment and organisation support a stimulating learning process, where your staff can grow and develop.

### Reward and Motivate

Exciting activities based around adventure, social contact, food, drink and exercise. Reward your staff and stimulate your business contacts!

### Buy and Sell

The right organisation and surroundings for successful launches of products and services, or events to broaden your market.

### Meet and Network

We create the right atmosphere and conditions for you to widen your circle of contacts and deepen your relationships, on a professional and a private level.

Give your meeting a physical frame. Drink in the Nordic light. Let your meeting participants be stimulated and surprised by a hotel design that reflects the latest trends in a style-conscious capital city. An experience for all senses awaits you at Nordic Light Hotel – Stockholm's design hotel.

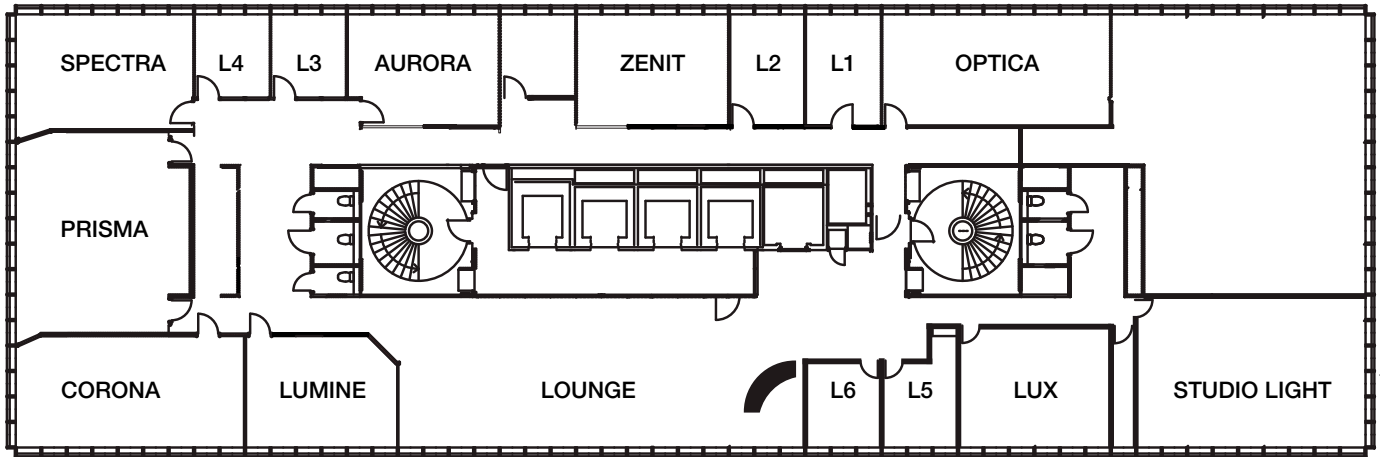

The fact that Nordic Light Hotel is situated in the heart of Stockholm is a good starting point. But the thing that will make your meeting unique with us, is our uncompromising approach to design, interior style and first class service – all presented with a warm, local touch. Nordic Light Hotel is part of the exclusive association of Design Hotels™, where these particular values are a requirement for membership. Discover what our innovative interior, inspired by the northern light and tastefully designed by renowned light architect Kai Piippo, can do for your meetings.

Book an exclusive event in our lobby, where the atmosphere changes with the shifting seasons. Discover the White Room, perfect for private, direct communication with your meeting participants. We also offer 15 meeting rooms for small, creative meetings with spectacular views over the rooftops of Stockholm. Let your meeting participants be inspired by Nordic Light Hotel.
